Cg vyapam sub engineer syllabus 2018 pdf free printable download template

I'm not robot!

CG Vyapam Sub Engineer Exam Syllabus 2019 2020 | CG Vyapam Sub Engineer (Civil), Sub Engineer (Electrical & Mechanical) Syllabus and Exam Pattern are given on this page. So, candidates who are searching for the CG Vyapam Syllabus 2019 they can collect full PDF on this page. CG Vyapam Sub Engineer Syllabus plays a prominent role in any exam preparation. Without having CG Vyapam Sub Engineer syllabus and Exam pattern nobody can know which subjects to prepare for the examination. You can check all details of Madras High Court Syllabus here. Are you looking for the free download? Then go through this section. CG Vyapam Sub Engineer Selection Process: The Selection Procedure of the Exam will be as follows: Chhattisgarh Professional Board Examination Sub Engineer Exam Details: Who is going to attend for the examination of CG Vyapam Sub Engineer 2019 they can know the how many rounds they are conducted to recruit the Sub Engineer posts. Candidates will be selected based on Written Exam, Interview. Clearing the Written Exam is a hope to get a job in Chhattisgarh Professional Board Examination Sub Engineer. But scoring the good marks and cracking the CG Vyapam Sub Engineer examination is a very crucial aspect of any examination. So to clear the test you must have to schedule your preparation by taking the reference of Syllabus and Exam Pattern. So, you have to check the syllabus and exam pattern in this article. Exam Pattern for CG Vyapam Sub Engineer Posts: The Exam pattern of CG Vyapam Sub Engineer Exam has clearly mentioned on our website. CG Vyapam Sub Engineer Questions paper will contain questions from their respective branch and will also include some questions of General Aptitude and Reasoning, General English, Numerical Aptitude and General Knowledge. CG Vyapam Sub Engineer Syllabus PDF Download: Here CG Vyapam Sub Engineer Syllabus is provided for the candidates preparing for Exam. Candidates those who have applied for CG Vyapam Sub Engineer Recruitment 2019 can use this syllabus helps you to give your best in the Sub Engineer Exam. The CG Vyapam Syllabus topics mentioned below. The standard syllabus for CG Vyapam Sub Engineer Syllabus PDF Download CG Vyapam Sub Engineer Syllabus 2022 & Exam Pattern PDF Download: From this page, applicants can get the information regarding the CGPEB Sub Engineer Syllabus 2022. The higher officials of the Chattisgarh Professional Examination Board (CGPEB) are planning to conduct the exam on the given for the Sub Engineer (Civil) posts. So, collect the CG Vyapam WRSE Syllabus 2022, and prepare well for the exam. We have seen that a huge number of applicants are searching various sites on the internet for the Chhattisgarh Sub Engineer Syllabus 2022. To make it easy for the aspirants, at the bottom of this page we have extracted the direct link to download the CG Vyapam Sub Engineer Syllabus 2022 in PDF format.From the below sections, you will also get the data on CG Vyapam Sub Engineer Exam Pattern. This exam is for 150 Marks divided into two sections, Section-A is for 50 Marks of subjects General Knowledge, Knowledge of computer, Reasoning, General Knowledge related to work of Applied post. Section-B is for 100 Marks of subject civil engineering. The time allocated for the exam is 3 Hours.CG Vyapam Sub Engineer Syllabus 2022 – DetailsCG Vyapam Sub Engineer Syllabus 2022 & Exam Pattern PDFOrganization NameChattisgarh Professional Examination Board (CGPEB)Post NamesSub Engineer (Civil)CategorySyllabusJob LocationChhattisgarhOfficial Sitevyapam.cgstate.gov.inCG Vyapam Sub Engineer Exam Pattern 2022From this article, applicants can get information regarding the CG Vyapam Sub Engineer Exam Pattern. This CG Vyapam Sub Engineer Exam Pattern plays an important fro the applicants who are going to take the exam on the given date. General Knowledge Current events – National & International. . Constitution of India, Political system and Indian Administrative system. . Knowledge of Chhattisgarh, geographical location, natural resources, industries, education, administrative structure, history & culture of Chhattisgarh, ancient history, freedom struggle, major archaeological tourist centers of the state. 2. Knowledge of Computer MS Office, Spread sheets, word Processing etc. Concept of hardware and software, operating system, windows etc. Data analysis and chart presentation. Multimedia/graphic presentation. Basic of internet and cloud computing. 3. Reasoning Coding – Decoding Number series Non verbal series Directions Decision making Alphabet series Clocks & calanders. Number ranking Cube & dice Mirror images Blood relations Arithmetical reasoning 4. Related to Work of applied Post General knowledge about Soil as regards construction purpose Cement, sand, aggregate and other construction materials Major rivers of country and state Major crops or the state. Irrigation facility of the state major dams and canal of the state Other miscellaneous topics Section – B Syllabus for Written Test for the Post of Sub-Engineer in Water Resources Department CIVIL ENGINEEING Surveying: Linear Measurement, Chain Surveying, Compass Surveying, Plane table surveying. Levelling. Contouring. Study of toposheets, Theodolite Survey, Tacheometric Surveys, Circular Curves, Electronic Theodolite, Electromagnetic Distance Measurement (EDM) Construction material: Bricks size & shape, Indian standard classification and specification as per BIS- 1077, testing of bricks, Fly ash bricks Aggregates classification of aggregates, coarse and fine aggregates, testing of aggregates, grading of aggregates, fineness modulus and bulking of sand. Cement – Composition & properties of cement, Bouge’s compound, hydration & heat of hydration of cement, field & laboratory test of cement as per IS, type & grades of cement & its suitability, mortar, its type & suitability. Concrete- Composition of concrete, its grades, types of concrete, fresh & hardened concrete & its properties, process of manufacture of concrete, testing of concrete. Transportation Engineering: Highway Alignment and Surveys, Highway geometrics, Pavement materials, Highway construction, Drainage of Roads, Bridge- Classification, Site Investigation, Bridge Substructure, Bridge Superstructure, Waterways. Hydraulics: Hydro-statics- Pressure, Pascal’s law, total pressure on horizontal vertical and inclined surface, center of pressure, Manometer. Hydro-kinematics- law of conservation of mass, continuity equation, types of flow. Hydro-dynamics- various forms of energy, Bernoullis’s theorem. Water discharge measurement-venturimeter orifice meter, pitot tube Notches and weirs, Flow through pipes- characteristics of pipe flow, Darcy-Weisbach equation, Expression for head losses due to friction, sudden enlargement and bends. Flow through open channel Wetted perimeter, hydraulic mean depth, hydraulic gradient, Chezy’s formula. Manning’s formula Geotechnical Engineering – Weight and Volume relationships of soil IS classification of soil: Index properties; Permeability: Well hydraulic; Shear strength; Earth pressure only. cohesion less soil, Bearing capacity-definitions and plate load test. Hydrology Definition, Hydrologic, cycle, water budget equation, catchment area. Precipitation, forms of precipitation, measurement of rainfall, rain gauge and types, rain gauge density as per is and WMO, computation of average rainfall over a basin, mean annual rainfall. Losses from precipitation, evaporation, infiltration, runoff, factors affecting run. off, computation of runoff hydrograph, unit hydrograph, peak flow determination, Stream flow measurement- area velocity method, Weir method, Stage discharge curve. Water Resource Engineering : Water Requirement of crops, Reservair Planning Purposes of reservoir, classification of reservoir bases on purpose, investigation for reservoir planning, Engineering surveys area elevation curve, storage elevation curve, Geological investigation, Hydrological investigation, factors affecting selection of site for a reservoir, Zones of storages and various water levels, storage capacity and yield of reservoir Dams- various types of dam, Factors governing the selection of type of dam, Factors for selection of site for a dam. Earthen Dams. Gravity Dams, Spillway, Diversion Headwork, Canal Irrigation System Canals, canal outlets, Canal Regulation works, Cross Drainage Works (Only Components and their functions), Canal lining and New irrigation techniques such as Drip Irrigation and Sprinkler Irrigation, lift irrigation. Public Health Engineering : Quantity of Water Population Forecast, Water Demand: Source of Water – Surface sources, Ground water; yield of well, Quality of water- Physical, Chemical and Microbiological tests; Treatment of water – Sedimentation, Filtration, Water softening, Disinfection; Collection and Conveyance of sewage, House Drainage. Structural Engineering : Stress and strain; Bending moments and Shear Forces in simply supported, cantilever, fixed, and continuous beams, Slopes and deflection in cantilever and simply supported beam, Stresses in beams, axially loaded column-Euler’s formula. RCC Design (Limit State Method IS 456:2000)- Design of singly and doubly reinforced RCC beams. Design of retaining Wall and Weir. Estimating and Costing :- Estimate for construction of Dams and canal & canal structures. Estimate for a building, Estimate of water supply and sanitary works, Earthwork for roads, Rate analysis, Estimate of RCC work, Estimate of, steel and timber roof trusses, Valuation types of values, deprecation. Construction Management Organisation of civil works department its structure & working, important formats of measurements, payment & bills, Gantt Chart, CPM network.
